Midwest Electric to Award Paid Trips to Capital to Contest Winners

Midwest Electric Cooperative will award expense paid trips to the nation's capital to winners of an oratorical contest they are sponsoring. This announcement was made this week by Jerry Robertson, Electrification Advisor for the Roby based cooperative.

The contest is open to any boy or girl at least 16 years of age but not 18 years of age prior to September 1, 1965. Mr. Robertson said. The winners of this contest will join winners of similar contests sponsored by other electric cooperatives across Texas on the first annual Texas Electric Cooperative Government in Action Youth Tour to Washington, D. C. Expenses of the 11-day trip beginning June 4 will be paid by Midwest Electric Cooperative, Robertson said.

Each entrant will be required to give a 5 to 8 minute talk on the subject "Member Ownership of The Electric Co-Op" and answer several questions which will be asked by the judges.

The oratorical contest will be judged on the basis of (1) knowledge of subject, 40%; (2) speaking ability, 30%; (3) poise, 10%; (4) personality, 10%; and (5) appearance, 10%.

Interested young people may obtain an official entry blank from their school or the offices

of Midwest Electric Cooperative in Roby or Snyder. The deadline for submitting entries will be February 12, 1965, Robertson said.

As participants in the Texas Electric Cooperative Youth Tour, local contest winners will travel by chartered bus to Washington, D. C. where they will spend three days visiting places of historical interest and seeing the nation's government in action.

On Wednesday, June 9, the Texas group will meet more than 600 students from 10 states for a program sponsored by the National Rural Electric Cooperative Association and the Rural Electrification Administration. The program will feature presentations by officials of these organizations and other Washington personalities and possibly the Presidential staff.

The eventful day will end with a cruise down the Potomac which will include entertainment and refreshments.

Also included on the 11-day agenda will be visits to the following: George Washington's Mount Vernon home, Arlington National Cemetery, the U. S. House and Senate, the U. S. Department of Agriculture, the Smithsonian Institute, the U. S. Bureau of Printing and Engraving, the Lincoln Memorial

Jones County Must Be Re-Certified Brucellosis Free Area Again in 1965

Nazarene Church Revival Services Now in Progress

Mr. Norton is well known in Hamlin having made this his home for more than 15 years. Mrs. Norton is a teacher in the Hamlin primary school. Mr. Norton is widely known as an evangelist in the Church of the Nazarene. He has conducted revivals over much of the United States.

He is a sound Bible preacher, placing emphasis on the Word of God, prayer and fasting and personal evangelism. Prayer meetings are held each evening before the preaching services. The services begin at 7:30. Mrs. Dewey Nunley is at the organ; Mrs. Mary Johnson at the piano and Miss Odene Murphree is the director of music. Mrs. Donald Young is the master of ceremonies.

No Increase in Social Security Taxes for 1965 Says Area Manager

"There has been no increase in the social security tax rate for employees, employers, and the self-employed for 1965," R. R. Tuley Jr., district manager of social security in Abilene, stated today. The rate continues at 3 5/8 per cent of an individual's annual earnings up to \$4800 for employer and employee alike, and 5 1/4 percent on net earnings up to that amount for the self-employed, he said.

"Tuley explained that he was stressing this point at this time because in some sections of the country questions were being asked at social security offices about 'the new tax rate for 1965,' with the inquirers asserting that they had read about a change in rate in certain business publications.

"The surge of many misconceptions has been traced to

Damp Weather Halts Area Harvest; End Near

The light rains and damp weather conditions have halted ginning operations this week, according to reports from the two gins that serve the Hamlin area.

Watts Fletcher, manager of the Hamlin Farmers Coop Gin, said Wednesday that the gin had processed 3800 bales and they expect to gin five to six hundred more before harvesting is completed.

Hollis Madden, manager of Farmers Coop Gin of Neinda, reported 1608 bales had been ginned and they expect six to seven hundred more.

The cotton this year is of

very poor quality and the harvest is running much later than that of last year. The harvest last year was completed in November and the cotton

BCD Banquet Date Changed To January 22

Date for the annual Board of Community Development banquet has been changed to Jan. 22 because of a conflict in the speaker's schedule. Dr. Charles W. Jarvis, a dentist from San Marcos, will be the speaker.

Tickets are now on sale for \$2.50 per plate. The banquet will be held at 7:30 p.m. in the high school gymnasium. C. F. Cook is chairman of the annual event.

Bookkeeping Course May Be Offered If Interest Shown

Several people have expressed a desire that an elementary bookkeeping class for adults be offered at Hamlin High School during the second semester. There is a possibility that if 20 or more will contact the school that such a course will be offered.

The course would include: starting a bookkeeping system, recording the changes in what is owned and owed, recording income and expenses, preparing a balance sheet and profit and loss statement. A complete bookkeeping cycle would be covered in a final problem.

The adult typing class will have its final meeting January 11 and all members are urged to be present. The bookkeeping class could begin on the following Monday night, January 18 for 16 weeks for two hours each week. The publisher is being contacted on the cost of a book and supplies for the course. When this information is received the cost of the course will be determined.

Bridge Winners

Mr. and Mrs. Henry Albritton were first place winners at the Tuesday evening meeting of the Hamlin Duplicate Bridge Club at the Oil Mill Guest House.

Jack Russell and Dan Gallagher were second and third place was shared by Mr. and Mrs. Gene Knabel and Mr. and Mrs. Grady Bowdry of Stamford.

Cynthia Ferguson of Stamford spent last week with her grandparents, Mr. and Mrs. John Collins.

brought from four to five cents more per pound in the 1963 season.

During August, when 105 degree temperatures lingered, the cotton was scorched, then September rains caused a second growth which was caught prematurely by hard freeze the latter part of November.

Fletcher said early cotton which was better quality brought 27 to 28 cents per pound. Most of this was hand picked. He estimated that approximately 2000 bales of this year's crop fell in this category. About 1-500 bales of the cotton processed at the Hamlin gin averaged 25 1/2 cents per pound. There was some which averaged 21 to 23 cents per pound and the price for the poorer quality will be lower.

The bulk of the cotton is being machine picked.

Neinda Philosopher Has Novel Idea for Bringing The Profit Motive to Agriculture, If It Will Work

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One may have his tongue in his cheek this week, but we couldn't tell till he shaves.

Dear editor:

Since I never did believe in throwing something away till it was worn out—except maybe a few tax laws I could mention—I was looking over my last year's New Year's resolutions and found they are in such good shape, most of them not even used at all, that I just settled them for this year and added them to reading a part of a newspaper which some New Year's celebrant had tried to make a pointed hat out of and lost out of his car on a road near this Johnson grass farm.

Up near the peak of that hat I found an article that said Russia is now going to experi-

ment in an effort to get its agricultural production stepped up.

What it's going to do is employ the profit motive, in the hope the Russian farmers will have an incentive to work harder and produce more.

Say, this sounds like a good idea and what I'd like to know is why don't we try it in this country?

Oh, I know we use it in most lines, like meat markets, grocery stores, medical practice, law practice, construction, manufacturing, banking, television, radio, newspapers, public office, but I don't know why nobody has ever thought of trying the profit system in farming and ranching.

Surely we're not going to sit back and let Russia forge ahead of us in agriculture. When Russia got the jump on

the world by putting the first satellite in orbit, what did we do? We tripled our funds for space exploration and caught up.

Clearly, the thing for Washington to do now is to triple the payments to us farmers and let us get our profits up to the general level. The profit motive is fine in farming and ranching, but it's no substitute for profit itself. The motive is fine for planting, but nothing beats a profit at harvesting.

By the way, I don't know how I came out with this Johnson grass farm in 1964. I had most of my records written down on the inside of the door to my barn, but it fell off face down during a rain storm and I can't make heads or tails of them.

Yours faithfully,
J. A.

FAIRVIEW NEWS

By MRS. ELMER JOINER

The New Year has come and gone again, the biggest news so far has been the unseasonably warm weather that prevailed on that day. Even the Johnson Grass has been fooled, in protected places it is two to three inches high, looking rather foolish in the middle of winter when the weather is supposed to be real cold.

Steve Ateek, former Hardin Simmons student from Nazareth, Israel, was a visitor of the Drake's last Monday afternoon.

He was accompanied by his 18 year old brother, who is attending Cisco Junior College, living with a sister that lives with her husband and baby between Ranger and Cisco. Steve is attending a seminary in California, and has one more year after this, then he plans to return home after an absence of seven years. His plans after that are rather indefinite, but he will enter the mission field. Since Steve was a frequent visitor in our church when he first came to Hardin Simmons, and so far from home, and at times so homesick, we have followed his progress with much interest.

Rev. and Mrs. Doyle Combs, Brenda, Cathy, Sherry and Johnny, were visitors of the

Woodrow Goodwin from Tuesday night to Thursday afternoon. Rev. Combs helped put out the Hamlin Herald last week since he was on a few days holiday, and it seems that he has the traditional printers ink in his blood.

Wednesday afternoon visitors of Mrs. Woodrow Goodwin, besides Mrs. Combs and children, were Mmes. George Waincott, Raleigh Bond, Winslow Gray and Elmer Joiner.

Mrs. Raleigh Bond escaped serious injury, Tuesday, when her car was involved in a wreck, just south of her house, as she was pulling into the Rotan Highway. Although her car was badly torn up, she was just shook up. The man in the other car also escaped being injured.

Rev. and Mrs. Leverett and girls, went to Odessa, last week to visit with her parents, and other relatives.

Mrs. Doyle Combs and girls, Mrs. Woodrow Goodwin and Mrs. Winslow Gray, all went to the Henry's Wednesday night after church, for a visit. Mrs. Combs and girls, having been visitors in church that night.

Mrs. Elmer Joiner and Mrs. Hap Ray went to see Mrs. Lois Hampton, Thursday afternoon, in Crestview Nursing Home, in Abilene. Mrs. Hampton had gone to her daughters, in Abilene, for Christmas dinner,

with other members of the family. She had also started on Tuesday, going to the rehabilitation center, for a weekly treatment, getting out in the open again will help boost her morale, for Mrs. Hampton was a very active person.

Visitors in the Winslow Gray home, last Tuesday, were a cousin of Mr. Gray's, Mr. and Mrs. Arnold Cogburn and children, of Happy, Texas.

Mr. and Mrs. Jimmy Joiner and children, spent Thursday night with his parents, the Elmer Joiners.

An unusual thing happened at the Drake household Monday, they had a hog killing. Since such a few people keep meat hogs any more, this is some thing for news to make all of their neighbors mouth water, yum, yum, good old home made sausage.

Mr. and Mrs. Elmer Joiner spent the week end in Carlsbad, New Mexico, with her brother, Mr. and Mrs. T. E. Dixon, and sister, Mr. and Mrs. Elmer Smith.

We had 13 in church services, Wednesday night, even though our pastor was absent. Those present not having learned their whereabouts, most of the time was spent speculating what had happened to them. As imaginations can run wild, every thing from car wrecks to sudden illnesses, was in our

NEW CANNED BACON—Bacon in the time it takes to cook the eggs. That's what you can have with a new canned bacon now available in some supermarkets.

At least three meat packers are slicing, partially frying, and canning bacon—to make a time-saving product that should go over big for workday breakfasts. Since it needs no refrigeration, it can also be a popular convenience food for picnics and vacation cooking.

Canned bacon was used in military rations during World War II, but the salty flavor of heavy curing made the product distasteful to soldiers. Less saltiness meant less cur-

mins. It seems that he had sent word of his impending visit to Odessa, but as we said, those present didn't learn of it, so speculation did run wild, while they were enjoying themselves visiting.

Mrs. E. A. Henry went to Aspermont last Thursday to visit her sister, Mrs. Lois Stuart.

Week end visitors of Mr. and Mrs. Henry were their son, Mr. and Mrs. W. C. Henry, Elgin, Texas.

ing. Without curing, gas-producing bacteria caused the bacon to sour and the can to swell.

After the war, scientists of USDA's Agricultural Research Service—at the request of the military—investigated the possibility of canning mildly cured bacon. By partially dehydrating the bacon before canning, they were able to cut down on the amount of salt needed, yet at the same time have enough present to prevent growth of the spoilage bacteria. In the industry process, the dehydration is accomplished by the pre-frying.

PLASTIC CLOTHES HANGERS—Clothes cleaned in a coin-op drycleaning establishment may come out smelling of cleaning fluid.

It's a good idea to air the clothes thoroughly before use or storage. Hang them outdoors or in a well-ventilated room—but do not use plastic hangers.

Sometimes enough solvent is left in heavy fabrics or shoulder pads to soften the plastic even though the fabric does not feel damp. Then the hanger sticks to the fabric so that it is difficult to remove without damaging the garment.

The same thing can happen if garments are hung on plastic hangers and exposed to fumes from moth preventives such as paradichlorobenzene.

Repairing Rod Guide—A hairline crack in a rod guide can wear fishing line thin in a very short time.

To fix it temporarily, wrap

a section of line carefully all around the guide. Weave it around and around and lay it up smooth. Then lash it to supporting arms.

It will last for several days. Early attention may prevent loss of theunker fish.

As It Looks From Here...

OMAR BURLESON, M. C.
17th District, Texas

Washington, D. C.—This is the first weekly newsletter for 1965 and the beginning of the 89th Congress. Each week an effort will be made to simply convey as best as possible the happenings in Washington. At times an attempt will be made to editorialize in a fashion, while other weekly reports will be a simple description of issues and events "As It Looks From Here." These efforts are

not meant to be "professional" in any respect, and not meant to deal with those things reported in the daily press. It is hoped, of course, they will be found of interest. Any response to them, including opinions whether in agreement or otherwise, will be welcome and respected. Anyone wishing to receive a personal copy of this weekly letter may write me, Congressman Omar Burleson, House of Representatives, Washington, D. C.

The Dodo Bird is supposed to

THE HAMLIN HERALD

fly backwards, interested only in where he has been and not caring where he is going—dumb bird they say.

On the other hand, he may be about half right. How can we really tell which way we are headed and what lies ahead if we ignore conditions created by where we have been?

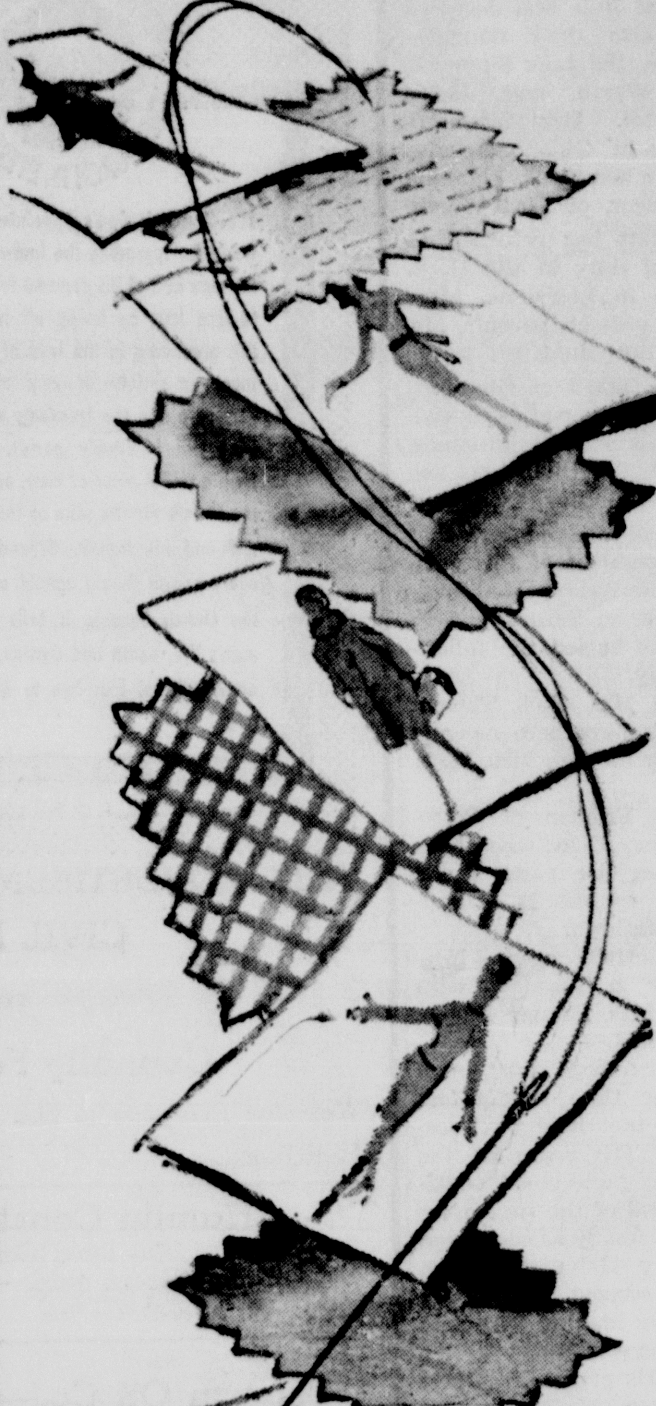

The administration headed by President Johnson emphasizes the forward look. In fact, since the days of President Roosevelt's "New Deal," all Administrations have slogan-

ized their programs for the future in inspiring terms. However, not all the past is like water over the dam. All problems created by where we have been do not dissolve and flow away, never to be recognized again. For unless we also have a backward look—to profit from mistakes and failures—chances are the same mistakes and failures will repeat themselves with greater thrust. To paraphrase something

AFTER THE PARTY IS OVER

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

©Coleman Adv. Ser., P. O. Box 20067, Dallas 20, Texas

Have you ever felt like this little girl after a big, exciting day at the Fair, or a party? You know how you feel — excited, exhausted; but you feel good, too. Sometimes you just want to lie down and think about it. But like the little one in this picture you, also, are too tired to remove your party hat or your shoes.

Sometimes it is delightful just to lie down and think of something good and wonderful and happy. It is good just to be still and sort of day-dream about what has happened.

There are other times in our lives when we need to achieve a sense of quietness and think of God. The Psalmist says, "Commune with your own heart upon your bed and be still." Psalm 4:4. God says in Psalms 46:10 "Be still and know that I am God."

We invite you to attend church and sense the still, quiet holiness that is God's presence in the midst of the congregation

For WTU residential customers

Now she knows what her electric service charge will be each month. West Texas Utilities Co. estimated her electric bill for one year and divided it into 12 equal even-dollar payments. This cuts down on her bank-stub arithmetic and helps her maintain her budget. She could even have the bank draft plan working with EPP. At the end of the planned time, one year from the month she signed up, her estimated payments will be balanced against actual metered usage. In case of significant changes in usage...due to abnormal weather or a new major appliance or other reasons...adjustments can be made during the year to re-equalize her payments. Be carefree! STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin — Just one year and four months ago, the state law establishing the office of Regulatory Loan Commissioner — called the "Loan Shark Law" — went into effect.

Opening of that state office marked the end of more than 36 years of legislative battles over regulatory control of loan companies.

Actually, that part of the law which provides for the licensing of those making loans of \$1,500 or less, once they meet rather rigid licensing standards, didn't become effective until December 23, 1963.

Since that time, some 1,800 loan offices have been licensed. Commissioner Frank Miskell says that 22 examiners have made a through check of the books and records of 724 offices.

Also, the agency's enforcement division has investigated 154 complaints by individuals against lenders. According to Miskell, 72 of the complaints involved alleged overcharges or refund shortages. But most of the investigations revealed that borrowers had not been overcharged. "They just woke up to the high cost of borrowing money."

Forty of the complaints involved charges of harassment or unreasonable collection ef-

orts. Investigation of these led to the discovery that some complaints were unjustified. Also, some were beyond the jurisdiction of the Loan Commissioner. These have been referred to district courts.

Other complaints ranged from hip-pocket (unlicensed) lenders to concealment of facts that should have been revealed in license applications. At the close of the agency's first year of operation, all but four of the cases were classified as "settled."

Miskell says that the "big ones" — the complaints that will be subject to public hearings and possible revocation of license — will be coming up early in 1965.

Egg Producers Get Reminder

Agriculture Commissioner John C. White reminds egg retailers and industry men that after January 1 all egg containers must bear the license number of the grader-packer.

Number identifies eggs and fixes responsibility for grading or labeling violations, White said. Also it is aimed at preventing out-of-state firms from shipping eggs into Texas without paying required fees.

Producers who sell eggs from their own flock on an ungraded basis do not have to have a license number.

New provision of the law was passed by the Texas Egg Marketing Advisory Board last summer. License numbers were assigned on September 1 when the annual re-registration period began.

Bob Hope Talks Texas

A special premiere of a film designed to tell the "true story" of Texas will be held in Austin on January 13, when "Bob Hope Talks Texas" will be shown to Gov. John Connally, members of the Legislature and other State officials.

Film was produced through efforts of the Texas Industrial Commission. It was financed by 14 industries and chambers of commerce. Purpose is to sell persons in other states and other countries on Texas and its business, industry and tourist attractions.

E. B. Germany, chairman, said that the commission hopes that the film will have some impact on plant location decisions — and that it will "hit at the image that Texas is all cowboys, Indians and sage brush."

Tax Estimates Due

R. L. Phinney, administrative officer of the Internal Revenue Service, reminds farmers and ranchers that Friday, January 15, 1965, is the final day for filing their estimated Federal income tax returns for 1964. That is unless they have arranged to file their final return on or before February 15.

Phinney said that farmers and ranchers who do file estimated returns on January 15 and pay the tax due on the estimate have until April 15 to file final returns and pay balances of taxes due.

Tax law defines a farmer or rancher as one who earns two-thirds or more of his gross income from farming or ranching.

Optimistic Note For Oilmen

Dr. Robert B. Williamson, research associate with UT's Bureau of Business Research, says Texas oil producers have grounds for cautious optimism concerning 1965.

He notes that while mid-December stocks of Texas crude were at the lowest point in 16 years, prospects for greater demand were in view. State crude oil production allowable for January was raised to the highest level in two years.

Williamson reports that the U. S. Defense Department, an important oil and gas customer, plans to increase its military purchases of petroleum fuels by three per cent during the fiscal year ending in June, 1965.

He points out that crude production rose one per cent the first 11 months of 1964, and oil and gas well completions also were up fractionally.

HIGHEST STATE BUDGET PROMISED

Governor Connally says that his state budget proposals will be "a good many million dollars" higher than the present spending level.

He is "hopeful" that new taxes can be avoided, but is "not prepared to say there will be none."

Connally covered a wide range of subject matter in a press conference.

He regretted closing of a few Texas military bases but commented that the action has to be "understood as the price we pay for change, for knowledge and for leadership."

He applauded creation of a Lyndon B. Johnson State Park in Gillespie County as "an excellent idea" and said he hopes the state eventually can acquire the Johnson home itself as an historic landmark.

Moving his own inauguration date from Jan. 19 to Jan. 26 is "entirely satisfactory" with him. The later date would permit more Texans to attend his swearing-in ceremony, a Democratic Victory Dinner in Austin, and the President's inauguration (January 20) in Washington.

WATER PLANNING

Cong. Joe Kilgore of McAllen will head an advisory committee of the Texas Water Commission. Committee will draft a new long-range water planning program.

A series of water conferences already are underway in Austin. Four groups of water users are being called in for comments, suggestions and help. They are the state, federal and local water agencies; the cities; the industrial and oil-gas groups; and the largest group, users of water for irrigation.

Chief Engineer John Vandertop is outlining to the 4 groups a program for developing a water plan to meet Texas' growth needs to the year 2020.

Plans will be ready by the fall of 1966, if the Legislature provides the money recommended by Governor Connally.

SENIOR CITIZENS INSURANCE

At the end of its first year of operation, the Texas 65 Health Insurance plan — authorized by the 1964 Legislature for persons over age 65 — reported that benefit payments totaled more than \$2,549,000 during the year.

Although 59,917 persons signed up during two enrollment periods, officials estimate that deaths and other causes brought the total registration down to 40,000 by the year's end. Sixty-four companies in the non-profit program designed to "provide low cost coverage for those Texans who previously were unable to purchase health insurance because of their age or health status."

Average age of present participants is 73 years.

POLLUTION JURISDICTION RULING

State Water Pollution Control Board is appealing a ruling by Judge Herman Jones held in a Superior Oil Company suit against the State, that the Railroad Commission has exclusive jurisdiction over disposal of oil and gas field waste.

Under the ruling the Water Pollution Control Board does not have authority to issue orders with regard to the use of open unlined salt water disposal pits designed to handle oil-field waste.

HEALTH PLANS

Texas Association for Mental Health has endorsed the community-care recommendations made by the Governor's Com-

mittee for Mental Health.

Similar approach was taken by the Governor's Committee on Tuberculosis. It proposed 11 districts for treatment and prevention of the disease and a focus on local care, rather than State treatment.

TRANSPORTATION PLAN PRESENTED

Texas Highway Department has presented to Corpus Christi city council the nation's first comprehensive transportation plan to comply with Federal Aid Highway Act of 1962.

Study was conducted by highway department, the City of Corpus Christi, Nueces County and U. S. Department of Commerce Bureau of Public Roads. Present and foreseeable traffic problems are pinpointed to provide a basis for development of highway routes, city streets and county roads in the Gulf Coast port area for the next 20 years.

LCRA PROTESTS DAM

Lower Colorado River Authority has protested construction of a dam on the Colorado River near Robert Lee at a Texas Water Commission hearing.

Colorado River Municipal Water District of Big Spring proposes to build the dam in Coke County for city water supply purposes. LCRA maintains it would stop 50,000-acre feet of water per year from flowing into Lake Buchanan and affect six other Highland Lakes in the Central Texas area.

COURT PLANS PROPOSED

Texas Civil Judicial Council has proposed plans for regular district court reapportionment

and involuntary retirement of judges.

Council, advisory group on courts to the governor, Supreme Court and Legislature suggests creation of boards to handle the jobs of redistricting where the Legislature fails to act and to process cases involving judge replacement. Supreme Court would have final say on the latter under council's plan.

James Buchanan was the only life-long bachelor to be President.

PIPER PATTEN—

Cast for Junior Play, 'You Can't Take It With You,' Selected

By NANCY FORD
CAROLYN REYNOLDS
MAROLYN REYNOLDS
January 4, 1965, began a new year for the students of HHS Monday morning. After the Christmas vacation it was quite difficult for everyone to return to the old grind of homework. However, reviewing must begin now for those finals which are Thursday and Friday, January 14 and 15.

Saturday night the Pipers and Piperettes began a new year when they hosted two teams—Rochester High School and Central Catholic High School. The A Girls beat Rochester 44 to 31, and the A Boys beat Central Catholic 67 to 42. If the first game of the year is a model for the rest of the year, the Pipers and Piperettes should be dribbling down the victory line all season.

Tuesday night, January 5, the Pipers played the Haskell Indians for their second District game with the outcome, Pipers 73 and Haskell 55.

Haskell was the Piperettes' first District opponent with the outcome, Haskell 48 and Piperettes 35.

Our teams have a good chance of being on the top of the District ladder this year, so let's give them our support. Tomorrow night, January 8, the teams journey to Winters for an important district game. Back our teams!

A new year calls for new calendars. The Senior class still has some Birthday Calendars for sale. A real bargain, the calendars are only 75 cents.

Call any senior for a calendar today!

Watts Fletcher, manager of the Hamlin Farmers Coop Gin, said Wednesday that the gin had processed 3800 bales and they expect to gin five to six hundred more before harvesting is completed.

Hollis Madden, manager of Farmers Coop Gin of Neinda, reported 1608 bales had been ginned and they expect six to seven hundred more.

The cotton this year is of very poor quality and the harvest is running much later than that of last year. The harvest last year was completed in November and the cotton

School Census To Begin Here Monday, Ends 29

The annual census for the Hamlin Independent School District will begin Monday and will end Friday, Jan. 29. All persons between the age of 6 and 18 will be enumerated.

Census slips will be sent home with school students on Jan. 11, and school authorities ask that these be completely filled out and returned to the school as quickly as possible.

Children to be included in the census are all those who will be six years of age or older before Sept. 1, 1965. This includes all married people, college students, or students in school who will be under 18 years of age next September.

Supt. C. E. Cook said additional information could be obtained at the superintendent's office. Also, the administration would appreciate getting names of children who will be six by September and might not have older brothers or sisters in school.

No Increase in Social Security Taxes for 1965 Says Area Manager

"There has been no increase in the social security tax rate for employees, employers, and the self-employed for 1965," R. R. Tuley Jr., district manager of social security in Abilene, stated today. The rate continues at 3 5-8 per cent of an individual's annual earnings up to \$4800 for employer and employee alike, and 5.4 percent on net earnings up to that amount for the self-employed, he said.

"Tuley explained that he was stressing this point at this time because in some sections of the country questions were being asked at social security offices about 'the new tax rate for 1965,' with the inquirers asserting that they had read about a change in rate in certain business publications.

"The source of many misconceptions has been traced to several privately produced leaflets outlining a number of proposed amendments to the social security law which were considered by Congress in 1964 but not enacted. The leaflets were sent out in sample lots to prospective bulk purchasers while the legislation was still under consideration.

"The failure of the legislation to pass the Congress should have ended all interest in these publications, and in most cases it did. However, at several widely-scattered locations these leaflets, which mentioned a proposed social security tax increase for 1965, were understood to mean that the proposed changes had been made. This was evidently why people began asking for more details," he said.

Bookkeeping Course May Be Offered If Interest Shown

Several people have expressed a desire that an elementary bookkeeping class for adults be offered at Hamlin High School during the second semester. There is a possibility that if 20 or more will contact the school that such a course will be offered.

The course would include: starting a bookkeeping system, recording the changes in what is owned and owed, recording income and expenses, preparing a balance sheet and profit and loss statement. A complete bookkeeping cycle would be covered in a final problem.

The adult typing class will have its final meeting January 11 and all members are urged to be present. The bookkeeping class could begin on the following Monday night, January 18 for 16 weeks for two hours each week. The publisher is being contacted on the cost of a book and supplies for the course. When this information is received the cost of the course will be determined.

Neinda Philosopher Has Novel Idea for Bringing The Profit Motive to Agriculture, If It Will Work

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One may have his tongue in his cheek this week, but we couldn't tell till he shaved.

Dear editor: Since I never did believe in throwing something away till it was worn out—except maybe a few tax laws I could mention—I was looking over my last year's New Year's resolutions and found they are in such good shape, most of them not even used at all, that I just adopted them for this year and settled down to reading a part of a newspaper which some New Year's celebrant had tried to make a pointed hat out of and lost out of his car on a road near this Johnson grass farm.

Up near the peak of that hat I found an article that said Russia is now going to experiment in an effort to get its agricultural production stepped up.

What it's going to do is employ the profit motive, in the hope the Russian farmers will have an incentive to work harder and produce more.

Say, this sounds like a good idea and what I'd like to know is why don't we try it in this country?

Oh, I know we use it in most lines, like meat markets, grocery stores, medical practice, law practice, construction, manufacturing, banking, television, radio, newspapers, public office, but I don't know why nobody has ever thought of trying the profit system in farming and ranching.

Surely we're not going to sit back and let Russia forge ahead of us in agriculture. When Russia got the jump on

brought from four to five cents more per pound in the 1963 season.

During August, when 105 degree temperatures lingered, the cotton was scorched, then September rains caused a second growth which was caught prematurely by hard freeze the latter part of November.

Fletcher said early cotton which was better quality brought 27 to 28 cents per pound. Most of this was hand picked. He estimated that approximately 2000 bales of this years crop fell in this category. About 1-500 bales of the cotton processed at the Hamlin gin averaged 25 1/2 cents per pound. There was some which averaged 21 to 23 cents per pound and the price for the poorer quality will be lower.

The bulk of the cotton is being machine picked.

FAIRVIEW NEWS

By MRS. ELMER JOINER

The New Year has come and gone again, the biggest news so far has been the unseasonably warm weather that prevailed on that day. Even the Johnson Grass has been fooled, in protected places it is two to three inches high, looking rather foolish in the middle of winter when the weather is supposed to be real cold.

Steve Ateek, former Hardin Simmons student from Nazareth, Israel, was a visitor of the Drake's last Monday afternoon.

Entered at Post Office at Hamlin, Texas, for transmission through the mails as Second Class matter according to an Act of Congress on March 3, 1879.

Notice to the Public: Any erroneous reflection upon the character of any person or firm appearing in these columns will be corrected gladly and promptly, upon its being brought to the attention of the management

Woodrow Goodwin from Tuesday night to Thursday afternoon. Rev. Combs helped put out the Hamlin Herald last week since he was on a few days holiday, and it seems that he has the traditional printers ink in his blood.

Wednesday afternoon visitors of Mrs. Woodrow Goodwin, besides Mrs. Combs and children, were Mmes. George Wainwright, Raleigh Bond, Winson Gray and Elmer Joiner.

Mrs. Raleigh Bond escaped serious injury, Tuesday, when her car was involved in a wreck, just south of her house, as she was pulling into the Rotan Highway. Although her car was badly torn up, she was just shook up. The man in the other car also escaped being injured.

Rev. and Mrs. Leverett and girls, went to Odessa, last week to visit with her parents, and other relatives.

Mrs. Doyle Combs and girls, Mrs. Woodrow Goodwin and Mrs. Winson Gray, all went to the Henry's Wednesday night after church, for a visit. Mrs. Combs and girls, having been visitors in church that night.

Mrs. Elmer Joiner and Mrs. Hap Ray went to see Mrs. Lois Hampton, Thursday afternoon, in Crestview Nursing Home, in Abilene. Mrs. Hampton had gone to her daughters, in Abilene, for Christmas dinner,

with other members of the family. She had also started on Tuesday, going to the rehabilitation center, for a weekly treatment, getting out in the open again will help boost her morale, for Mrs. Hampton was a very active person.

Visitors in the Winson Gray home, last Tuesday, were a cousin of Mr. Gray's, Mr. and Mrs. Arnold Cogburn and children, of Happy, Texas.

Mr. and Mrs. Jimmy Joiner and children, spent Thursday night with his parents, the Elmer Joiners.

An unusual thing happened at the Drake household Monday, they had a hog killing. Since such a few people keep meat hogs any more, this is some thing for news to make all of their neighbors mouth water, yum, yum, good old home made sausage.

Mr. and Mrs. Elmer Joiner spent the week end in Carlsbad, New Mexico, with her brother, Mr. and Mrs. T. E. Dixon, and sister, Mr. and Mrs. Elmer Smith.

We had 13 in church services, Wednesday night, even though our pastor was absent. Those present not having learned their whereabouts, most of the time was spent speculating what had happened to them.

As imaginations can run wild, every thing from car wrecks to sudden illnesses, was in our

NEW CANNED BACON

Bacon in the time it takes to cook the eggs. That's what you can have with a new canned bacon now available in some supermarkets.

At least three meat packers are slicing, partially frying, and canning bacon—to make a time-saving product that should go over big for workday breakfasts. Since it needs no refrigeration, it can also be a popular convenience food for picnics and vacation cooking.

Canned bacon was used in military rations during World War II, but the salty flavor of heavy curing made the product distasteful to soldiers. Less saltiness meant less curminds. It seems that he had sent word of his impending visit to Odessa, but as we said, those present didn't learn of it, so speculation did run wild, while they were enjoying themselves visiting.

Mrs. E. A. Henry went to Aspermont last Thursday to visit her sister, Mrs. Lois Stuart.

Week end visitors of Mr. and Mrs. Henry were their son, Mr. and Mrs. W. C. Henry, Elgin, Texas.

ing. Without curing, gas-producing bacteria caused the bacon to sour and the can to swell.

After the war, scientists of USDA's Agricultural Research Service—at the request of the military—investigated the possibility of canning mildly cured bacon. By partially dehydrating the bacon before canning, they were able to cut down on the amount of salt needed, yet at the same time have enough present to prevent growth of the spoilage bacteria. In the industry process, the dehydration is accomplished by the pre-frying.

PLASTIC CLOTHES HANGERS

Clothes cleaned in a coin-op drycleaning establishment may come out smelling of cleaning fluid.

It's a good idea to air the clothes thoroughly before use or storage. Hang them outdoors or in a well-ventilated room—but do not use plastic hangers.

Sometimes enough solvent is left in heavy fabrics or shoulder pads to soften the plastic even though the fabric does not feel damp. Then the hanger sticks to the fabric so that it is difficult to remove without damaging the garment.

PAGE TWO

THE HAMLIN HERALD

Hamlin, Texas, Thursday, January 7, 1965

The same thing can happen if garments are hung on plastic hangers and exposed to fumes from moth preventives such as paradichlorobenzene.

Repairing Rod Guide

A hairline crack in a rod guide can wear fishing line thin in a very short time.

To fix it temporarily, wrap

a section of line carefully all around the guide. Weave it around and around and lay it up smooth. Then lash it to supporting arms.

It will last for several days. Early attention may prevent loss of theunker fish.

Most thunderstorms generate in the daytime.

As It Looks From Here . . .

OMAR BURLISON, M. C. 17th District, Texas

Washington, D. C.—This is the first weekly newsletter for 1965 and the beginning of the 89th Congress. Each week an effort will be made to simply convey as best as possible the happenings in Washington. At times an attempt will be made to editorialize in a fashion, while other weekly reports will be a simple description of issues and events "As It Looks From Here." These efforts are

not meant to be "professional" in any respect, and not meant to deal with those things reported in the daily press. It is hoped, of course, they will be found of interest. Any response to them, including opinions whether in agreement or otherwise, will be welcome and respected. Anyone wishing to receive a personal copy of this weekly letter may write me, Congressman Omar Burlison, House of Representatives, Washington, D. C.

The Dodo Bird is supposed to

fly backwards, interested only in where he has been and not caring where he is going—dumb bird they say.

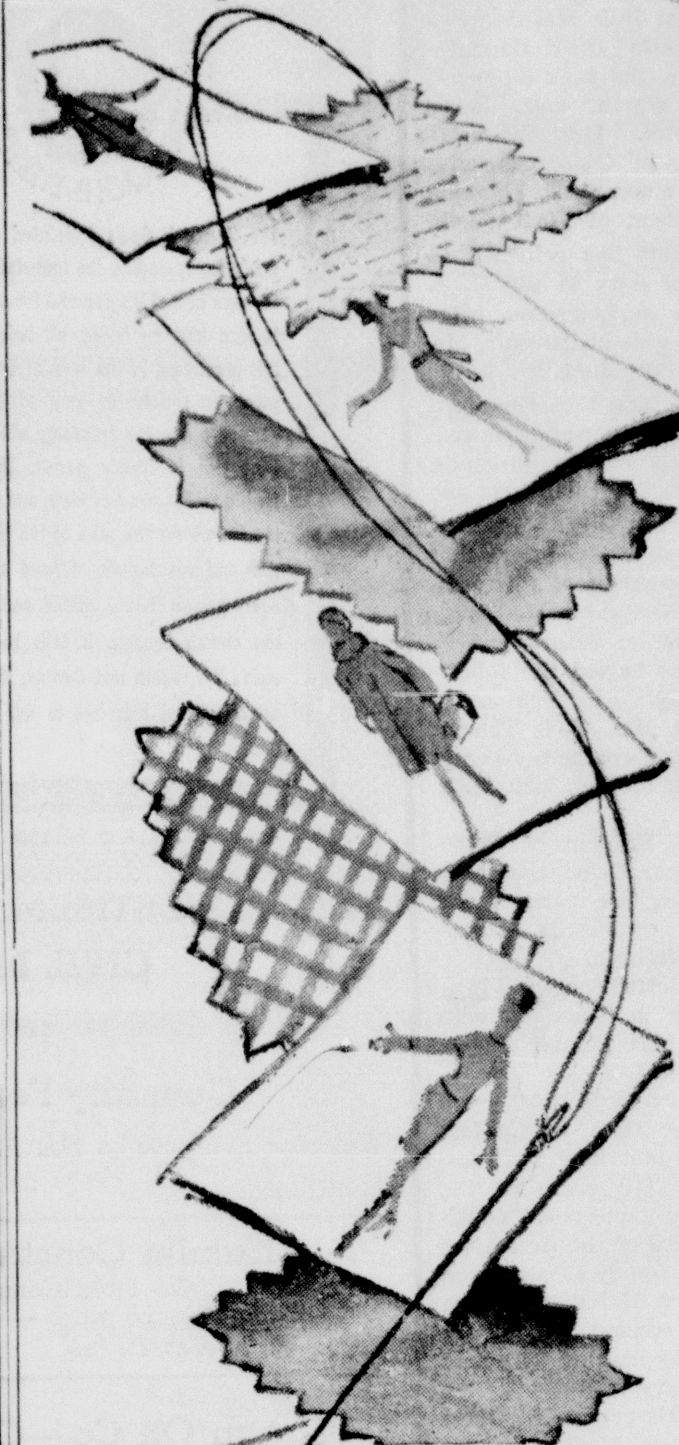

On the other hand, he may be about half right. How can we really tell which way we are headed and what lies ahead if we ignore conditions created by where we have been?

The administration headed by President Johnson emphasizes the forward look. In fact, since the days of President Roosevelt's "New Deal," all Administrations have slogan-

ized their programs for the future in inspiring terms. However, not all the past is like water over the dam—All problems created by where we have been do not dissolve and flow away, never to be recognized again. For unless we also have a backward look—to profit from mistakes and failures—chances are the same mistakes and failures will repeat themselves with greater thrust. To paraphrase something

AFTER THE PARTY IS OVER

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

©Coleman Adv. Ser., P. O. Box 20067, Dallas 20, Texas

Have you ever felt like this little girl after a big, exciting day at the Fair, or a party? You know how you feel — excited, exhausted; but you feel good, too. Sometimes you just want to lie down and think about it. But like the little one in this picture you, also, are too tired to remove your party hat or your shoes.

Sometimes it is delightful just to lie down and think of something good and wonderful and happy. It is good just to be still and sort of day-dream about what has happened.

There are other times in our lives when we need to achieve a sense of quietness and think of God. The Psalmist says, "Commune with your own heart upon your bed and be still." Psalm 4:4. God says in Psalms 46:10 "Be still and know that I am God."

We invite you to attend church and sense the still, quiet holiness that is God's presence in the midst of the congregation

*Equal Payment Plan

For WTU residential customers

Now she knows what her electric service charge will be each month. West Texas Utilities Co. estimated her electric bill for one year and divided it into 12 equal even-dollar payments. This cuts down on her bank-stub arithmetic and helps her maintain her budget. She could even have the bank draft plan working with EPP. At the end of the planned time, one year from the month she signed up, her estimated payments will be balanced against actual metered usage. In case of significant changes in usage...due to abnormal weather or a new major appliance or other reasons...adjustments can be made during the year to re-equalize her payments. Be carefree! See WTU and join Equal Payment Plan.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin — Just one year and four months ago, the state law establishing the office of Regulatory Loan Commissioner — called the "Loan Shark Law" — went into effect.

Opening of that state office marked the end of more than 36 years of legislative battles over regulatory control of loan companies.

Actually, that part of the law which provides for the licensing of those making loans of \$1,500 or less, once they meet rather rigid licensing standards, didn't become effective until December 23, 1963.

Since that time, some 1,800 loan offices have been licensed. Commissioner Frank Miskell says that 22 examiners have made a thorough check of the books and records of 724 offices.

Also, the agency's enforcement division has investigated 154 complaints by individuals against lenders. According to Miskell, 72 of the complaints involved alleged overcharges or refund shortages. But most of the investigations revealed that borrowers had not been overcharged. "They just woke up to the high cost of borrowing money."

Forty of the complaints involved charges of harassment or unreasonable collection ef-

orts. Investigation of these led to the discovery that some complaints were unjustified. Also, some were beyond the jurisdiction of the Loan Commissioner. These have been referred to district courts.

Other complaints ranged from hip-pocket (unlicensed) lenders to concealment of facts that should have been revealed in license applications. At the close of the agency's first year of operation, all but four of the cases were classified as "settled."

Miskell says that the "big ones" — the complaints that will be subject to public hearings and possible revocation of license — will be coming up early in 1965.

Egg Producers Get Reminder
Agriculture Commissioner John C. White reminds egg retailers and industry men that after January 1 all egg containers must bear the license number of the grader-packer.

Number identifies eggs and fixes responsibility for grading or labeling violations, White said. Also it is aimed at preventing out-of-state firms from shipping eggs into Texas without paying required fees.

Producers who sell eggs from their own flock on an ungraded basis do not have to have a license number.

New provision of the law was passed by the Texas Egg Marketing Advisory Board last summer. License numbers were assigned on September 1 when the annual re-registration period began.

Bob Hope Talks Texas
A special premiere of a film designed to tell the "true story" of Texas will be held in Austin on January 13, when "Bob Hope Talks Texas" will be shown to Gov. John Connally, members of the Legislature and other State officials.

Film was produced through efforts of the Texas Industrial Commission. It was financed by 14 industries and chambers of commerce. Purpose is to sell persons in other states and other countries on Texas and its business, industry and tourist attractions.

E. B. Germany, chairman, said that the commission hopes that the film will have some impact on plant location decisions — and that it will "hit at the image that Texas is all cowboys, Indians and sage brush."

Tax Estimates Due
R. L. Phinney, administrative officer of the Internal Revenue Service, reminds farmers and ranchers that Friday, January 15, 1965, is the final day for filing their estimated Federal income tax returns for 1964. That is unless they have arranged to file their final return on or before February 15.

Phinney said that farmers and ranchers who do file estimated returns on January 15 and pay the tax due on the estimate have until April 15 to file final returns and pay balances of taxes due.

Tax law defines a farmer or rancher as one who earns two-thirds or more of his gross income from farming or ranching.

Optimistic Note For Oilmen
Dr. Robert B. Williamson, research associate with UT's Bureau of Business Research, says Texas oil producers have grounds for cautious optimism concerning 1965.

He notes that while mid-December stocks of Texas crude were at the lowest point in 16 years, prospects for greater demand were in view. State crude oil production allowable for January was raised to the highest level in two years.

Williamson reports that the U. S. Defense Department, an important oil and gas customer, plans to increase its military purchases of petroleum fuels by three per cent during the fiscal year ending in June, 1965.

He points out that crude production rose one per cent the first 11 months of 1964, and oil and gas well completions also were up fractionally.

HIGHEST STATE BUDGET PROMISED
Governor Connally says that his state budget proposals will be "a good many million dollars" higher than the present spending level.

He is "hopeful" that new taxes can be avoided, but is "not prepared to say there will be none."

Connally covered a wide range of subject matter in a press conference.

He regretted closing of a few Texas military bases but commented that the action has to be "understood as the price we pay for change, for knowledge and for leadership."

He applauded creation of a Lyndon B. Johnson State Park in Gillespie County as "an excellent idea" and said he hopes the state eventually can acquire the Johnson home itself as an historic landmark.

Moving his own inauguration date from Jan. 19 to Jan. 26 is "entirely satisfactory" with him. The later date would permit more Texans to attend his swearing-in ceremony, a Democratic Victory Dinner in Austin, and the President's inauguration (January 20) in Washington.

WATER PLANNING
Cong. Joe Kilgore of McAllen will head an advisory committee of the Texas Water Commission. Committee will draft a new long-range water planning program.

A series of water conferences already are underway in Austin. Four groups of water users are being called in for comments, suggestions and help. They are the state, federal and local water agencies; the cities; the industrial and oil-gas groups; and the largest group, users of water for irrigation.

Chief Engineer John Vandertulip is outlining to the 4 groups a program for developing a water plan to meet Texas' growth needs to the year 2020.

Plans will be ready by the fall of 1966, if the Legislature provides the money recommended by Governor Connally.

SENIOR CITIZENS INSURANCE

At the end of its first year of operation, the Texas 65 Health Insurance plan — authorized by the 1964 Legislature for persons over age 65 — reported that benefit payments totaled more than \$2,549,000 during the year.

Although 59,917 persons signed up during two enrollment periods, officials estimate that deaths and other causes brought the total registration down to 46,000 by the year's end. Sixty-four companies in the state participate in the non-profit program designed to "provide low cost coverage for those Texans who previously were unable to purchase health insurance because of their age or health status."

Average age of present participants is 73 years.

POLLUTION JURISDICTION RULING

State Water Pollution Control Board is appealing a ruling by Judge Herman Jones held in a Superior Oil Company suit against the State, that the Railroad Commission has exclusive jurisdiction over disposal of oil and gas field waste.

Under the ruling the Water Pollution Control Board does not have authority to issue orders with regard to the use of open, unlined salt water disposal pits designed to handle oil-field waste.

HEALTH PLANS

Texas Association for Mental Health has endorsed the community-care recommendations made by the Governor's Com-

mittee for Mental Health.

Similar approach was taken by the Governor's Committee on Tuberculosis. It proposed 11 districts for treatment and prevention of the disease and a focus on local care, rather than State treatment.

TRANSPORTATION PLAN PRESENTED

Texas Highway Department has presented to Corpus Christi city council the nation's first comprehensive transportation plan to comply with Federal Aid Highway Act of 1962.

Study was conducted by highway department, the City of Corpus Christi, Nueces County and U. S. Department of Commerce Bureau of Public Roads. Present and foreseeable traffic problems are pinpointed to provide a basis for development of highway routes, city streets and county roads in the Gulf Coast port area for the next 20 years.

LCR9A PROTESTS DAM

Lower Colorado River Authority has protested construction of a dam on the Colorado River near Robert Lee at a Texas Water Commission hearing.

Colorado River Municipal Water District of Big Spring proposes to build the dam in Coke County for city water supply purposes. LCRA maintains it would stop 50,000-acre feet of water per year from flowing into Lake Buchanan and affect six other Highland Lakes in the Central Texas area.

COURT PLANS PROPOSED

Texas Civil Judicial Council has proposed plans for regular district court reapportionment

and involuntary retirement of THE HAMLIN HERALD

Council advisory group on courts to the governor, Supreme Court and Legislature suggests creation of boards to handle the jobs of redistricting where the Legislature fails to act and to process cases involving judge replacement. Supreme Court would have final say on the latter under council's plan.

James Buchanan was the only life-long bachelor to be President.

PIPER PATT—

Cast for Junior Play, 'You Can't Take It With You,' Selected

By NANCY FORD
CAROLYN REYNOLDS
MAROLYN REYNOLDS
January 4, 1965, began a new year for the students of HHS Monday morning. After the Christmas vacation it was quite difficult for everyone to return to the old grind of homework. However, reviewing must begin now for those finals which are Thursday and Friday, January 14 and 15.

Saturday night the Pipers and Piperettes began a new year when they hosted two teams—Rochester High School and Central Catholic High School. The A Girls beat Rochester 44 to 31, and the A Boys beat Central Catholic 67 to 42. If the first game of the year is a model for the rest of the year, the Pipers and Piperettes should be dribbling down the victory line all season.

Tuesday night, January 5, the Pipers played the Haskell Indians for their second District game with the outcome, Pipers 73 and Haskell 55.

Haskell was the Piperettes' first District opponent with the outcome, Haskell 48 and Piperettes 35.

Our teams have a good chance of being on the top of the District ladder this year, so let's give them our support. Tomorrow night, January 8, the teams journey to Winters for an important district game. Back our teams!

A new year calls for new calendars. The Senior class still has some Birthday Calendars for sale. A real bargain, the calendars are only 75 cents.

Call any senior for a calendar today!
